

BCIT PD Online Education

Twelve registered nurses* sponsored by the BC Renal Agency have completed the new [BCIT advanced online course](#) on PD and self-care management. A second cohort of six more nurses is now enrolled in the current session of the three-month course, and a third session will start in April.

Nurses who complete the course receive academic credit toward a Bachelor's degree in nursing or an advanced certificate in nephrology nursing from BCIT or the Canadian Nurses Association.

The BC Renal Agency will reimburse the NSNN 7425 advanced online course fee for any registered nurse who already is or will be working on a PD unit in the province. The course was developed in collaboration between the Renal Agency and BCIT. Feedback from the first cohort of nurses is being used to further develop and refine the course.

* Congratulations to Mohammed Alhaj-hassan, Chelsea Bruce, Melanie Campbell, Annick Couture, Wendy Harasimiuk, Jane Meyer, Margie Kensah, Monique LeBlanc, Anne Schmuck, Kimiko Simpson, Karen Walkey and Shelbi Wong
