

### **BC Quality Forum**

The sixth annual Quality Forum takes place in Vancouver, March 1-3, 2017. The forum is focused on improving quality of health care, and this year's event is expected to attract over 1,400 attendees.

The forum's first two days of programming include 55 sessions, over 150 speakers, 100 storyboards, six workshops, four field trips, three plenaries, and a debate.

Sessions span a wide range of topics and intended audiences, including [patients](#), [critical & acute care specialists](#), [primary care providers](#), [change agents](#), [mental health & addictions](#) workers, and those who work in [residential and end-of-life care](#).

For more information or to register, visit [QualityForum.ca](http://QualityForum.ca).
